

Supplies Terms & Conditions

1. **General**
 - 1.1 The scope, quantity, quality, functionality and technical specifications of any goods, equipment, documentation, software, work or services to be provided by Siemens (collectively referred to as "**Supplies**") are exclusively defined as the case may be either in the order confirmation of Siemens or the Contract signed by the Customer and Siemens.
 - 1.2 The offer letter from Siemens together with these terms and conditions and those other documents expressly identified in the offer letter as forming part of the contract shall together constitute the entire agreement between the parties (the "**Contract**"). Any terms and conditions of the Customer shall apply only where expressly accepted in writing by Siemens.
 - 1.3 References in the Contract to "**Siemens**" are to the Siemens, S.A. with CIF-A 28006377 and address in Ronda de Europa, 5, 28760 Tres Cantos (Madrid). References to the "**Customer**" are to the legal entity to whom the offer letter is addressed.
2. **Right of Use**
 - 2.1 Except as expressly otherwise agreed in this Contract, as between the parties all intellectual and industrial property rights in the Supplies, in all documents provided by Siemens in connection with this Contract (the "**Documents**") and in all intellectual and industrial property rights (including software) and know how ("**IPRs**") in the Supplies and other things provided with or as part of the Supplies and the Documents shall be exclusively property of and vest in Siemens. The Customer shall not be entitled to reverse engineer, to decompile, or to reproduce (or have reverse engineered, decompiled, or reproduced) the Supplies or parts thereof except to the extent that such restrictions are unenforceable under the applicable law.
 - 2.2 The Customer may use the Documents unmodified and to the extent necessary for operation and routine maintenance of the Supplies by the Customer's own personnel, unless explicitly agreed otherwise in writing by Siemens.
 - 2.3 If the Supplies include Siemens software, such software is licensed under the license terms contained in the software documentation, the software itself or in the attached license terms (in each case the "**applicable license conditions**"), which shall prevail over this Clause 2. The software is issued in object code without source codes. The license hereunder only grants the non-exclusive right to use the software as described in the applicable license conditions or, if there are no applicable license terms, for the purpose of operation and routine maintenance of the Supplies.
 - 2.4 The Supplies may include third party standard software. Insofar as specific license conditions of the third party licensor apply, Siemens will provide such license conditions together with the Supplies. The Customer shall comply with such third party license terms.
 - 2.5 Insofar as the software contains Open Source Software ("**OSS**"), Siemens will provide the applicable OSS license conditions together with the Supplies. The OSS license conditions shall prevail over this Contract. Details regarding any third-party software and OSS contained in the Supplies are available in the software documentation (e.g. README_OSS).
 - 2.6 The rights granted in Clause 2 shall be transferable to a third party only in case of transfer of the Supplies to that third party.
- 2.7 Without prejudice to the Customer's intellectual property rights and subject to compliance with applicable law, Siemens and its Affiliates may for its own business purposes collect, use, modify, and copy any data received under this Contract. Any legal obligations regarding personal data shall remain unaffected.
3. **Prices and Terms of Payment**
 - 3.1 Unless agreed otherwise in writing, prices exclude packing, freight, insurance and any other additional charges (such as storage, inspections by third parties). The price payable by the Customer under this Contract shall be referred to in this Contract as the "**Contract Price**".
 - 3.2 The Contract Price is exclusive of any indirect taxes (such as property, license, sales, use, value added or similar tax) and/or any duties, customs or public charges related to the Contract. The Customer agrees to pay to or reimburse Siemens for any taxes, customs, duties or other public charges levied on Siemens in relation to the Supplies. All payments shall be made to Siemens' bank account without deduction (e.g. deduction of withholding tax) within 30 days after issuance of the invoice. If the Customer is required to make a deduction by law, the sum payable shall be increased so that Siemens receives a net amount equal to the amount it would have received without such deduction. The Customer shall provide to Siemens tax receipts from the relevant tax authorities in connection with the payments in due course.
 - 3.3 Without prejudice to any other rights it may have, Siemens may charge interest at 9 percentage points above the current base lending rate of the European Central Bank on any overdue payments.
 - 3.4 Each party must pay all sums that it owes to the other party under this Contract free and clear without any set-off, counterclaim, deduction or withholding of any kind, save as agreed otherwise in writing or as may be required by law.
4. **Delivery Times and Delay**
 - 4.1 Any agreed dates in respect of the Supplies or any part of them shall be extended by a reasonable period of time if and to the extent that Siemens is delayed or impeded in the performance of its obligations by any third party or by the failure of the Customer to perform its obligations. This includes without limitation the delivery of required documents (such as necessary permits and approvals), timely performance of any work to be undertaken by the Customer or any third party appointed by the Customer, and compliance with the terms of payment.
 - 4.2 Siemens may, if it is reasonable to do so, deliver the Supplies in stages or instalments and shall be entitled to invoice for the Supplies on a corresponding basis.
 - 4.3 If Siemens does not meet the agreed final delivery date solely due to the fault of Siemens, the Customer shall be entitled to liquidated damages amounting to 0.5% of the price of per each completed week of delay, in which the Customer suffered loss as a result of such delay. Liquidated damages payable in case of delay shall be limited to 5% of the price of that part of the Supplies, which, because of the delay, could not be put to the intended use.
 - 4.4 Any rights and remedies of the Customer in case of delay other than those expressly stipulated in this Clause 4 and in Clause

15.2a) below shall be excluded, to the extent permissible by law.

- 4.5 If the Customer, the Customer's contractors, or any other third party appointed by the Customer causes a delay to the provision of the Supplies, the Customer shall reimburse Siemens all reasonable additional costs and expenses incurred due to such delay.

5. Transfer of Risk and Title

- 5.1 Risk of damage to or loss of any part of the Supplies shall pass to the Customer upon delivery.
- 5.2 The Supplies shall be deemed delivered if and when the Customer fails to take over the delivery without cause. In such case, the Supplies can be stored and insured at the risk and expense of the Customer, any payment shall become due, and all other consequences of the delivery shall apply accordingly. The same consequences shall apply on the scheduled date of delivery if the dispatch is postponed for reasons attributable to the Customer.
- 5.3 Title in any part of the Supplies shall remain with Siemens until Siemens has received full payment for that part of the Supplies. Upon conclusion of the Contract the Customer authorises Siemens to notify or enter this retention of title into public registers, books or similar records kept for this purpose by the competent authorities of the relevant countries and to fulfil all required formalities at the Customer's expense.

6. Force Majeure

- 6.1 A **"Force Majeure Event"** means any event which is beyond the reasonable control of a party or its subcontractors, which could not have been prevented by good industry practice and which results in a party (the **"Affected Party"**) being unable to perform or being delayed in performing in whole or in part its obligations under this Contract. Force Majeure Events include, among others, acts of war, riot, civil commotion, terrorism, natural disaster, epidemic, strikes, lock-outs, attacks on Siemens' IT systems (such as virus attacks, hacker attacks), non-issuance of licenses, permits or approvals, or any other act or failure to act by any public authority, or embargos or any other trade sanctions.
- 6.2 If a Force Majeure Event occurs, the Affected Party will be deemed not to be in breach of its obligations under the Contract for so long as and to the extent necessary to overcome the effects of the Force Majeure Event.
- 6.3 The Affected Party shall notify the other party as soon as reasonably practicable of the Force Majeure Event and of its affected obligations.
- 6.4 If one or more Force Majeure Events and their effect lasts for a period of 180 days in aggregate either party may terminate the Contract by giving to the other a written notice of termination with regard to the part of the Supplies not yet delivered. With regard to the part of the Supplies not delivered, Siemens shall be entitled to reimbursement from the Customer of its unavoidable costs related to such termination.

7. Obligations of the Customer

- 7.1 The Customer shall on its own apply for and obtain all necessary licenses, permits and approvals required for the commissioning, acceptance, and use of the Supplies.
- 7.2 If Supplies are delayed due to circumstances for which Siemens is not responsible, the Customer shall pay Siemens all additional costs arising from such delay.

Notwithstanding the preceding paragraph in accordance with Royal Decree 110/2015, of 20 February, regarding Electrical and electronic equipment waste ("RD 110/2015"), all electric appliances and electronic ("ESA") that become waste when their user or holder discarded them or intends to dispose of them have the consideration of waste of electrical and electronic equipment ("WEEE"). This paragraph regarding these general conditions is applicable to WEEE professionals, in accordance with the definition contained in article 3, letter l) of the RD 110/2015. According to the mentioned RD 110/2015 AEE holders may destine them to reuse or dispose of them as WEEE. In this second case should instruct the management of WEEE waste duly authorized managers, or make them available to Siemens for collection directly by Siemens or through the collective system of extended producer responsibility to which Siemens is part. In case that the generator of waste wants to put it at the disposal of Siemens, the Customer must convincingly notify its intention through the usual Customer contact through email. Siemens will organize the collection of the WEEE free of charge to the Customer. It is important that all agents involved in the production and management of WEEE are committed to comply with the legal provisions in force in the matter, to achieve the objectives of management of waste established by the competent authorities. Siemens appreciates your cooperation by placing at the disposal of the waste in the terms that have just been exposed.

9. Defects Liability

- 9.1 In this Contract, and subject to Clause 9.2, a defect shall mean any non-conformity of the Supplies with the express terms of this Contract resulting from circumstances existing in the Supplies at the time of the transfer of risk to the Customer (**"Defects"**).

 - non-conformity resulting from faulty or negligent handling; non-compliance with instructions or recommendations in operation or maintenance manuals and other documents;
 - installation, erection, modification, commissioning, or pre-commissioning, in each case not carried out by Siemens,
 - non-reproducible software errors,
 - defects which do not significantly impair the use of the respective Supplies.
- 9.3 The Customer shall immediately inspect the Supplies upon delivery and shall notify Siemens in writing of any Defects without undue delay. The Customer's claims in respect of defects shall be excluded for any apparent defects, if the Customer has failed to do so.

Upon such written notification, Siemens shall, at its option, remedy a Defect by repair, replacement, or re-performance. Siemens shall be given a reasonable period of time and opportunity to remedy the Defect. For this purpose, the Customer shall grant Siemens working access to the non-conforming Supplies, shall undertake any necessary dis-assembly and re-assembly, and shall provide access to operation and maintenance data, all at no charge to Siemens.

Upon Siemens' request, the Customer shall ensure that the title to the replaced parts/items shall pass to Siemens.

- 9.4 Unless otherwise agreed, the defects liability period for any part of the Supplies is 12 months. It starts at the date of transfer of risk.

For replaced or repaired parts of the Supplies, the defects liability period is 6 months from the date of replacement or repair, if the original defects liability period for the Supplies expires earlier. In any event, the defects liability period shall end no later than 24 months from the beginning of the original defects liability period.

- 9.5 If software is defective, Siemens shall only be obliged to provide the Customer with an updated version of the software in which the Defect has been remedied when such updated version is reasonably available from Siemens or, if Siemens is only licensee, from Siemens' licensor. If the software has been modified or individually developed by Siemens, Siemens shall in addition provide the Customer with a workaround or other interim corrective solution until the provision of an updated version of the software, if such workaround or interim solution is feasible at reasonable expense and if otherwise the Customer's business operations would be substantially impeded.

- 9.6 If Siemens carries out remedial work and it is ultimately not established that there was a Defect, the Customer shall pay Siemens for such remedial work including error diagnosis.

- 9.7 Any other liability of Siemens and rights and remedies of the Customer in case of defects of the Supplies, other than those expressly stipulated in this Clause 9 or , in case Siemens failed at least three times in remedying the defect, in Clause 15.2b) shall be excluded. - obtain a right to use the relevant IPR in connection with the Supplies; or
 - modify the Supplies so as not to infringe the relevant IPR; or
 - replace the infringing part of the Supplies.

If, in the opinion of Siemens, none of the foregoing is reasonably possible, Siemens shall take back the relevant part of the Supplies and reimburse the price for such part.

- 10.3 Any claims of the Customer shall be excluded if the Customer (including its agents, employees or contractors) is responsible

for the IPR infringement, which shall include without limitation if the IPR infringement was caused by specific demands of the Customer, by use of the Supplies for a purpose or in a manner not foreseeable by Siemens, by a modification of the Supplies by the Customer, or by use of the Supplies in connection with other equipment.

- 10.4 This Clause 10 sets forth Siemens' entire liability for infringement of third party IPRs. Any other rights and remedies of the Customer shall be excluded.

18.7 In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art security concept. Siemens' portfolio only forms one element of such a concept. You are responsible for preventing unauthorized access to your plants, systems, machines and networks which should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. Additionally, Siemens' guidance on appropriate security measures should be taken into account. For additional information, please contact your Siemens sales representative or visit <https://www.siemens.com/global/en/home/company/topic-areas/future-of-manufacturing/industrial-security.html> Siemens' portfolio undergoes continuous development to make it more secure. Siemens strongly recommends that updates are applied as soon as they are available and that the latest versions are used. Use of versions that are no longer supported, and failure to apply the latest updates may increase your exposure to cyber threats. Siemens strongly recommends to comply with security advisories on the latest security threats, patches and other related measures, published, among others, under <http://www.siemens.com/cert/en/cert-security-advisories.htm>.
